This action is in response to the allowance of 7/1905.

This action is to correct an obvious typographical error in the claims and correct the numbering of dependent claims.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 12 last line delete the word - - comprising - -

This amendment was made to correct a typographical error of the previous amendment filed 5/4/05.

Reasons for Allowance

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1, and 12 limit the method of forming a semiconductor feature to providing a semiconductor substrate with a first opening in a dielectric layer, and an inorganic

Art Unit: 2813

BARC layer on the surface, depositing and patterning a photoresist over the BARC layer and carrying out a first plasma assisted etch in a gas containing CO to harden the photoresist, thus increasing etching resistance, and carrying out a second etch into the dielectric layer to form a second opening. This limitation, in combination with the other limitations of claims 1 and 12 is not taught or suggested by the prior art of record. Chu (US2004/0192058) treats the photoresist in a separate step rather than in the first plasma etch. Also, as to combining Chu with other references, the applicant has stated that the application and Chu were, at the time of the (instant) invention, commonly owned by the same assignee (remarks 5/4/05). Liu (US006451703B1 and US006613689B2) teaches a similar process to of carrying out a first plasma assisted etch in a gas containing CO to alter the photoresist, thus increasing etching resistance, to form an opening, but does not teach this process to form a second opening (dual damascene) in a dielectric layer. The applicant has also submitted notice that Tsai (US006787455B2), Sue (US006638853), and Huang (US2004/0087167) were, at the time of the (instant) invention, commonly owned by the same assignee (letter 7/19/05 and 7/19/05).

Claims 10-11 and 18-20 are allowed as being properly dependent upon allowed claim 1.

Claims 13-17 are allowed as being properly dependent upon allowed claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
